

Leuchars Press: Special Edition on Committees

(Published Monthly by the Publicity Committee)

Edition 3 February 2018

Publicity Committee

At Leuchars Primary School, all children in P2-7 are members of a committee. Being a member of a committee allows children to practice skills they have learnt in class and to be involved in decision making. It helps us to meet their right to have their views listened to and respected. Each month, the Publicity Committee produce an edition of their Newspaper, Leuchars Press. This month, they have chosen to write a special edition, focussing on the work of the Committees.

**Community
Links Committee**

By Demi lee and Scott
And Logan

Our committee is finding out facts about the Community Links group and we found three facts: about their aim, what they're doing and future plans. Their aim is to make links with the community and they are doing Scottish Songs and poems. Their future plans are going down to the Servite Home and sing their songs to people who live there.

At Assembly, the Gardening Committee gave us an excellent presentation about their work. Their job is to encourage sustainable planting throughout school. Right now they are agreeing to the gardening charter, cutting and weeding the poppy garden. Soon they would like to plant different flowers in the garden like snowdrops.

Eco Committee

By Charlie Sakeasi and Jessica

STOP PLASTIC AND LITTER from going on the ground - that's the aim of the eco committee.
They plan to stop littering. They are trying to make everyone care about the environment. They are now planning to build a bug hotel, after someone vandalised their other one. They are writing letters to the company who make milk for us to stop them from making plastic straws to help the environment.

The aim of the committee is to promote diversity around the school. Right now the Committee is learning Chinese New Year and they are making a special calendar with religious celebrations

on the dates they have been making different flags as well, which you can spot on the notice board in the main corridor.

By Emily Bella and Brooke

Today we went outside and we were finding out what the playground committee were doing and we found out they were planning on getting some new stuff for the playground. They even want chickens!

Rights Respecting

By Kenzie, Hayden and Lukas

Today we went to visit the Rights Respecting Committee to find out about the Shoe Share. They would like to put up posters all around Leuchars and ST Andrews to share information about our rights and about donating shoes to help Unicef get kids in school and get an education. Everyone feels happy and enjoys the committee and they can't wait for the next committee on 27th March.

We had gone to find out what Mr Waite and his committee are getting up to - guess what they are thinking? They want to get everyone out of class for a big walk. Mr Waite and his committee are planning to take a first aid kit if someone needs help from a graze or a bumped head.

Mr Waite's committee are making a poster about what he and his committee is up to and their thoughts of what they are doing.

His committee are thinking about phoning Tesco and get some free fruit for the school to encourage healthy eating in and out of school.
